Recommendation Letter for Tobias Jeppesen

To whom it may concern,

I am professor in the Department of Computer Science of the IT University of Copenhagen. I write this letter to strongly recommend Tobias Jeppesen for a job in your company.

Tobias completed his Bachelor thesis at IT University of Copenhagen, under my supervision, last summer. He showed a lot of initiative and autonomy. From a technical point of view, he demonstrated an ability to assimilate a lot of state-of-the-art contents, discuss design choices and implement efficient code. This semester, Tobias has been a TA in the course I give on Operating System and C. He is much appreciated by the students for his kindness and expertise.

I am convinced that Tobias will do well at any company he joins in Denmark or abroad. I would hire him any day as a software engineer in my team.

Yours sincerely,

Philippe Bonnet
Professor
